

DESIGNER SAUNAS

The clean, contemporary styling of Finnleo®'s Designer Saunas makes it almost impossible to believe they're assembled from pre-fabricated panels. Choose from six Designer styles, all from the finest woods and carefully crafted to Finnleo®'s standards.

Finnleo® quality is evident in the individually selected and finished boards and the precision finish on doors and windows. Extensive use of glass and angles gives each sauna an open, contemporary feel. European styling lends a striking touch of elegance.

These beautiful saunas are ready to use after only a few hours of assembly.

THE "EURO"

The diminutive Euro sauna, designed exclusively for bathrooms and master bath suites, features a unique, angled front wall.
